CBW also includes such information on its website and will make this information available to organizations that assist persons with hearing disabilities as appropriate.

### Methodology for Functionality Levels

CBW has devised a good/better/best rating system to enable customers to determine which CBW handset will best meets the customer's needs. Handsets are separated into each category based on the following three criteria: 1) the HAC rating, as certified by the handset manufacturer, 2) available handset features (e.g. voice, camera phone, WiFi capability, etc.) and 3) the manufacturer's suggested retail price.
